EDITOR'S NOTE 05

Introduction

Nigel Russell, Editor-on-Chief

FIELD NOTES 07

Shadow of the Future: Precision Medicine in Multiple Myeloma

Erin Flynt, PhD and Anjan Thakurta, PhD, Celgene

15

Precision prescribing with pharmacogenomics

An interview with Philip Empey, University of Pittsburgh, and Peter Silvester, ThermoFisher Scientific

20

Expanding Precision Medicine

Dr. Luis Lasalvia and Reto Merges, Siemens Healthineers

26

Personalized Medicine's Path to Patients: A Progress Report on Reimbursement Policies and Clinical Practices in the Public and Private Sectors

Edward Abrabams, President, PMC

COGNISCIENTI 29

Precision medicine approaches in sickle cell disease

Srila Gopal MD and Catriona Jamieson MD, PhD, UC San Diego Health

30

Unsickling the Sickle: A Review of State of the Art and Emerging Applications of iPSCs and CRISPR/Cas9 for Gene Editing Solutions for Sickle Cell Disease

Arushi Dogra and Deepak Asudani MD, MPH, UCSD

36

Smarter, Accessible Data Means Learning from Every Patient

Dr. Brian Anderson, Andre Quina, and Dr. Jay Schmitzer, MITRE

40

Informatics Approach and Considerations that Enable Precision Medicine Program Success

An interview with Patricia Goede, Ph.D. and Emerson Borsato Ph.D.

44

(Part 1) Value of a Genomic Wellness Program: How your organization can offer pharmacogenomic testing to employees

Amjaad Al-Hussain, MHSA

46

(Part 2) A Brief Guide to PGx Implementation for Healthcare Systems and Employers

Amjaad Al-Hussain, MHSA

PRECISION TOOLS 51

From benchside to bedside and back again: Evidence-based content drives the future of Precision Medicine

Helena F. Deus, Katie Scranton, Rui Fa, Finlay Maclean, Thom Pijnenburg, Jabe Wilson and Mevan Samarasinghe, Elsevier

58

Combining clinical data with genetic, syndromic and social determinants of health data

Chris Hobson, MD, MBA, Orion Health, and Allen Ausford, MD, FCFP, University of Alberta

62

Center for Genetics and Precision Medicine in Clinical Trials: A United Partnership

An interview with Jill Johnston, WCG Clinical Services, and Karmen Trzupek, InformedDNA

70

Women Leaders in Healthcare: Benefits of Diversity within Precision Medical Leadership

Coco Brown and Tara Kochis, Slone Partners

83

How Education is Catching Up with Genomics

Mark Kiel, Founder and Chief Science Officer, Genomenon and Barbara Kraatz Fortini, Assistant Professor of Genetics, Keck Graduate Institute
